**Kroff, Inc. Launches New Company Focused on  
Engineering Chemical Solutions for Meat Processing Industry**  
*– Kroff Food Services, Inc. Provides Onsite Services and USDA-Approved Chemicals –*

**PITTSBURGH, October 8, 2013** – [Kroff, Inc.](#), a specialty chemical company focused on creative solutions for environmental, manufacturing and water treatment processes, continues to expand its service array with the official launch of Kroff Food Services, Inc. The newest company under the Kroff brand is providing the beef industry with production and process chemicals; cleaning and sanitation for the processing of beef; water management for food production; boilers, refrigeration and cooling systems; and waste treatment solutions.

“Kroff Food Services offers the full continuum of services – from slaughter interventions for the beef industry to sanitation and beyond,” said Tim Laube, general manager of Kroff Chemical Company, Inc. “We provide on-site services that offer proven solutions and approved chemicals, and our advanced technologies and skilled personnel make Kroff Food Services a strategic partner that enables meat processing companies to improve efficiencies, reduce costs and ensure regulatory compliance.”

Products offered by Kroff Food Services are registered and accepted for use by the U.S. Department of Agriculture, the Federal Drug Administration and the Environmental Protection Agency, as well as by foreign regulators. The company’s consultative approach includes a complete review of existing practices and recommendations for improved performance and cost optimization. Where improvements are achievable, Kroff Food Services works with food processors to identify affordable solutions that ensure they meet and exceed quality requirements.
